

VIKAS BORAGE

Senior Flutter Developer • Cross-Platform Mobile & AI-Augmented Engineer

Location: Mumbai, India (Open to Remote / Relocation) | Phone: +91 9326125447 | Email: boragevikast@gmail.com
LinkedIn: linkedin.com/in/vikas-borage | GitHub: github.com/boragevikas | Portfolio: boragevikas.github.io/boragevikas | Live Products: boragetech.in

PROFESSIONAL SUMMARY

Flutter & Mobile Engineer with **4+ years** of production experience building high-performance, cross-platform mobile applications for **Android & iOS** using **Flutter & Dart**. Proven track record managing **350+ production releases** across the Google Play Store and Apple App Store with 99.8% crash-free sessions. Expert in Clean Architecture, reactive state management (**GetX, BLoC / Cubit, Provider**), and secure payment gateway engineering (**PhonePe SDK, Razorpay**). Pioneers **AI-augmented developer velocity** utilizing **Claude Code, OpenAI Codex, Google Antigravity**, and develops **custom MCP (Model Context Protocol) servers** to automate repetitive engineering workflows, accelerating sprint delivery while maintaining pristine code quality.

CORE TECHNICAL SKILLS

Mobile & Frameworks:	Flutter SDK (Android & iOS), Dart, Flutter DevTools, Responsive UI, Adaptive Design (Material & Cupertino)
State & Architecture:	GetX (Reactive State, Routing & Dependency Injection), BLoC / Cubit, Provider, Clean Architecture, Layered MVVM
AI Tooling & MCP:	Claude Code, OpenAI Codex, Google Antigravity, Custom MCP Server Development (Automated DTO & Test Generation)
Payments & Financials:	PhonePe SDK, Razorpay Gateway, UPI Intent Flows, Webhooks, HMAC-SHA256 Signature Verification, Invoicing
APIs, Cloud & Storage:	RESTful APIs (Dio, Http), Firebase (FCM, Firestore, Auth, Crashlytics, Remote Config), WebSockets, SQLite, Hive NoSQL
DevOps & Performance:	App Store Connect, TestFlight, Google Play Console, CI/CD, Git/GitHub, ProGuard/R8, 60/120 FPS Frame Profiling

PROFESSIONAL EXPERIENCE

Senior Flutter Developer	May 2022 – Present (4+ Years)
Recipto Pvt Ltd — Hyderabad, India (Hybrid / Remote)	Mumbai, India
Cross-Platform Production Delivery: Led mobile engineering and store deployments for two flagship Flutter applications (Customer App & Partner/Rider App), orchestrating 350+ production releases to Google Play Store and Apple App Store with 99.8% crash-free sessions. State Management & Architecture: Architected modular, scalable Flutter applications using GetX and Provider, cleanly decoupling UI from business logic with reactive controllers, lightweight dependency injection, and clean navigation routing. High-Performance Mobile Profiling: Profiled widget render trees and frame budgets via Flutter DevTools to guarantee smooth 60/120 FPS scrolling; eliminated memory leaks in complex list views and cut APK/IPA sizes by 30%+ via ProGuard/R8 and asset tree-shaking. Payment Gateway Engineering: Engineered secure checkout flows integrating PhonePe SDK and Razorpay, supporting seamless UPI intent redirection, webhook signature verification, transaction status reconciliation, and automated receipts. AI-Augmented Velocity & MCP Servers: Developed custom Model Context Protocol (MCP) server connectors and integrated Claude Code, OpenAI Codex, and Google Antigravity to automate repetitive tasks—including API DTO serialization and mock generation—accelerating feature velocity. Real-Time Chat & Dispatch Notifications: Built low-latency order dispatch pipelines, driver tracking, and customer-rider chat using Firebase Cloud Messaging (FCM), WebSockets, and background service daemons. Deep Linking & Store Growth: Implemented deep linking architectures using Branch.io SDK, Android App Links, and iOS Universal Links to streamline user onboarding, referral funnels, and app navigation.	

KEY PROJECTS & PRODUCTS

BT SplitBill — Smart Group Expense Sharing Application	Mobile & Web • Integrated Product
Architected a cross-platform group expense manager featuring WhatsApp settlement reminders, contact address book lookup, multi-currency tracking, and automated debt-simplification algorithms.	
BorageTech Suite (boragetech.in) — Live SaaS & Web Tools	JavaScript • Canvas API • Cloudflare R2
Developed live production web apps including BT QR Studio and Electricity Tariff Calculator with integrated Razorpay live payments, dynamic redirect engines, and automated GST invoice generation.	
Voice-Enabled Accessibility Assistant & Face Recognition	Python • OpenCV • TensorFlow • Mobile
Built voice-controlled accessibility utility for visually impaired users paired with real-time deep learning facial recognition models.	

EDUCATION & HIGHLIGHTS

Bachelor of Engineering (B.E.) in Electronics & Telecommunication	2017 – 2021 CGPA: 7.63 / 70.03%
Mumbai University (Smt. Indira Gandhi College of Engineering, Ghansoli)	Mumbai, India
Highlights: 350+ Play Store & App Store Deployments Published Author on Amazon KDP (Automated Digital Publishing Engine) In-Plant Trainee: ITI Limited Bangalore English (Proficient), Marathi (Native), Hindi (Native)
