

VIKAS BORAGE

Flutter Developer • Mobile Application Engineer (Android & iOS)

Location: Mumbai, India | Phone: +91 9326125447 | Email: boragevikast@gmail.com

LinkedIn: [linkedin.com/in/vikas-borage](https://www.linkedin.com/in/vikas-borage) | GitHub: github.com/boragevikas | Portfolio: boragevikas.github.io/boragevikas

PROFESSIONAL SUMMARY

Results-driven Flutter Developer with **3+ years** of professional experience building, testing, and deploying cross-platform applications for **Android & iOS**. Proven track record managing **350+ production releases** across the Google Play Store and Apple App Store. Proficient in Dart, Clean Architecture, state management (**Provider, GetX, Bloc**), REST APIs (Dio), Firebase backend services, and offline-first local storage (Hive, SQLite). Experienced in integrating payment gateways, push notifications, and deep linking, while leveraging AI tools for efficient debugging and development.

TECHNICAL SKILLS

Mobile & Languages:	Flutter SDK, Dart (OOP, Streams, Null Safety), Android (Kotlin/Java interop), iOS (Xcode, Swift interop)
Architecture & State:	Clean Architecture, MVVM, Layered Architecture, Provider, GetX, Bloc / Cubit, Dependency Injection
Backend & Cloud:	RESTful APIs (Dio with interceptors & retry logic), Firebase (Firestore, Auth, FCM, Crashlytics, Remote Config), WebSockets
Storage & Database:	Hive (NoSQL local storage), SQLite (sqflite), SharedPreferences, Offline-first synchronization
Native & Integrations:	App Links, Deep Linking (Branch.io), Payment Gateways (PhonePe, Razorpay), Google Maps, Local Notifications
DevOps & Tools:	Google Play Console, Apple App Store Connect, TestFlight, CI/CD, Git, ProGuard/Obfuscation, Memory Profiling

PROFESSIONAL EXPERIENCE

Software Developer (Mobile Application Developer - Flutter) Recipto Pvt Ltd — <i>Hyderabad, India (Hybrid / Remote)</i>	May 2022 – Present Mumbai, India
• Cross-Platform Production Apps: Led frontend development, release management, and store deployment for two flagship Flutter applications (Customer App & Partner/Rider Store App), delivering 350+ production releases to Google Play Store and Apple App Store. • State Management & Architecture: Built modular layered architecture using Provider and GetX, cleanly separating business logic from UI components to maintain reusable code across Android and iOS. • Real-Time Chat & Notifications: Implemented order chat pipelines and dispatch notifications using Firebase Cloud Messaging (FCM) and background services for reliable, low-latency updates. • Performance & App Size Optimization: Profiled memory leaks and widget rebuilds using Flutter DevTools; reduced app bundle size and improved startup time using ProGuard rules and asset optimization. • Payment Gateways & Services: Integrated PhonePe SDK and Razorpay for secure checkout workflows, alongside Google Maps API for live location tracking and Gmail OAuth. • Deep Linking & Navigation: Implemented deep linking architectures using Branch.io SDK, Android App Links, and iOS Universal Links to streamline user onboarding and app navigation.	

KEY PROJECTS & PRODUCTS

BT Split Bill — Smart Offline-First Expense Sharing App	Flutter • Dart • Hive • Cloud Firestore • AdMob
• Built a standalone expense-splitting mobile app featuring local caching via Hive NoSQL and automatic synchronization with Cloud Firestore when network connectivity is restored. • Integrated phone contacts sync (flutter_contacts), multi-currency ledger logic, expense charts (fl_chart), CSV statement export, and Google AdMob monetization.	
Recipto Store & Rider Operations Suite	Flutter • REST APIs • Dio • QR Scanning • Hive
• Engineered an operations app enabling merchants and delivery partners to accept order dispatches, scan QR codes, and upload multi-format order documents (PNG, JPG, PDF up to 10MB). • Implemented automated retry interceptors and error handling with Dio to maintain operational reliability during weak network connectivity.	
Voice-Enabled Accessibility Assistant & Face Recognition	Python • OpenCV • TensorFlow • Flutter Companion
• Developed voice-controlled accessibility assistant for visually impaired users (messaging, music, weather) paired with deep learning face recognition via OpenCV/TensorFlow.	

EDUCATION & CERTIFICATIONS

Bachelor of Engineering (B.E.) in Electronics & Telecommunication Mumbai University (Smt. Indira Gandhi College of Engineering, Ghansoli)	2017 – 2021 CGPA: 7.63 / 70.03% Mumbai, India
