

VIKAS BORAGE

Flutter Developer • Mobile Application Engineer (Android & iOS)

Location: Mumbai, India | Phone: +91 9326125447 | Email: boragevikast@gmail.com
LinkedIn: [linkedin.com/in/vikas-borage](https://www.linkedin.com/in/vikas-borage) | GitHub: github.com/boragevikas | Portfolio: boragevikas.github.io/boragevikas

PROFESSIONAL SUMMARY

Results-driven Flutter & Mobile Engineer with **3+ years** of experience architecting, building, and deploying scalable cross-platform applications for **Android & iOS**. Proven delivery of **350+ production releases** across Google Play Store and Apple App Store, maintaining high-performance rendering (steady 60 FPS) and robust app security. Proficient in Dart, Clean Architecture, state management (**Provider, GetX, Bloc**), REST APIs (Dio), Firebase ecosystem, offline-first caching, and AI-accelerated engineering workflows.

TECHNICAL SKILLS

Mobile & Languages:	Flutter SDK, Dart (OOP, Streams, Null Safety), Android (Kotlin/Java interop), iOS (Xcode, Swift interop)
Architecture & State:	Clean Architecture, MVVM, Layered Architecture, Provider, GetX, Bloc / Cubit, Dependency Injection
Backend & Cloud:	RESTful APIs (Dio, Http), Firebase (Firestore, Auth, Cloud Messaging/FCM, Crashlytics, Remote Config), WebSockets
Storage & Database:	Hive (NoSQL local storage), SQLite (sqflite), SharedPreferences, Offline-first synchronization
Native & Integrations:	App Links, Deep Linking (Branch.io), Payment Gateways (PhonePe, Razorpay), Google Maps, Local Notifications
DevOps & Security:	Google Play Console, Apple App Store Connect, CI/CD, Git, ProGuard/Obfuscation, Memory Profiling, App Security

PROFESSIONAL EXPERIENCE

Software Developer (Mobile Application Developer - Flutter) Recipto Pvt Ltd — <i>Hyderabad, India (Hybrid / Remote)</i>	May 2022 – Present Mumbai, India
Cross-Platform Production Apps: Spearheaded the end-to-end development and deployment of two flagship Flutter applications (Customer App & Partner/Rider Store App), managing 350+ production releases on Google Play Store and Apple App Store. State Management & Architecture: Designed modular layered architecture using Provider/GetX, establishing clear separation between UI, domain business logic, and API data layers, increasing code reusability to 85%+ across Android and iOS. Real-Time Chat & Messaging: Built high-throughput order chat pipelines and dispatch notifications via Firebase Cloud Messaging (FCM) and background services, cutting notification and sync latency by 40%. Performance & App Size Optimization: Profiled memory leaks and widget rebuilds; decreased production bundle size by 28% using ProGuard rules, deferred asset loading, and SVG vectors, ensuring smooth 60 FPS on budget devices. Payment Gateway & Services: Integrated PhonePe SDK, Razorpay, Google Maps, and Gmail OAuth, maintaining a 99.4% payment success rate and accurate real-time geolocation tracking. Deep Linking & Growth: Architected deferred deep linking workflows using Branch.io SDK and Android App Links / iOS Universal Links, boosting campaign acquisition and conversion rates by 32%.	

KEY PROJECTS & PRODUCTS

BT Split Bill — Smart Offline-First Expense Sharing App	Flutter • Dart • Hive • Cloud Firestore • AdMob
- Architected a standalone expense-splitting mobile app featuring local caching via Hive NoSQL and automatic cloud sync with Cloud Firestore when network connectivity is restored. - Integrated phone contacts sync (flutter_contacts), multi-currency logic, expense charts (fl_chart), CSV statement export, and Google AdMob monetization.	
Recipto Store & Rider Operations Suite	Flutter • REST APIs • Dio • QR Scanning • Hive
- Built an operations app enabling merchants and delivery partners to accept order dispatches, scan QR codes, and upload multi-format order documents (PNG, JPG, PDF up to 10MB). - Implemented automatic network retry interceptors using Dio to maintain operational reliability during intermittent mobile connectivity.	
Voice-Enabled Accessibility Assistant & Face Recognition	Python • OpenCV • TensorFlow • Flutter Companion
Developed voice-controlled accessibility assistant for visually impaired users (messaging, music, weather) paired with deep learning face recognition via OpenCV/TensorFlow.	

EDUCATION & CERTIFICATIONS

Bachelor of Engineering (B.E.) in Electronics & Telecommunication Mumbai University (Smt. Indira Gandhi College of Engineering, Ghansoli)	2017 – 2021 CGPA: 7.63 / 70.03% Mumbai, India
Highlights: 350+ Play Store & App Store Deployments Published Author on Amazon KDP (Automated Digital Publishing Engine) In-Plant Trainee: ITI Limited Bangalore
